

Smoke impacts from fire pit or brazier

Dear Neighbour,

You may not be aware that your fire pit is creating too much smoke. The smoke is impacting surrounding residents and rather than making a complaint, I just wanted to let you know that it's starting to affect our health and lifestyle.

Brisbane City Council has provided this letter to assist in mutually resolving the matter. I have decided to let you know about smoke produced by your fire pit, as I am sure you would like the opportunity to resolve this matter yourself.

Typically, fire pit smoke is creating impacts at these times:

Date:

Smoke impact start time:

Smoke impact stop time:

This appears to happen when:

Other information:

Attached is a fact sheet from Council which may help you understand the guidelines for the residential use of fire pits and braziers and provide possible solutions to reduce the smoke impact.

For more detailed information and tips on how to stop smoke impacts, you can visit www.brisbane.qld.gov.au and search 'brazier and fire pit heating' in the search menu.

Regards,

Your neighbour.
