

# Macaranga Crescent Park - Final Concept Plan

Dedicated to a better Brisbane

## LEGEND

- 1** New connecting path (nature trail) to link with Waterlily Circuit playground, towards the north of the park.
- 2** Fitness stations along existing pathway. (Already installed)
- 3** New recycled plastic bollards along park boundary.
- 4** Existing shelter, picnic settings and BBQ to be retained and refurbished.
- 5** Additional seating and picnic tables under shaded areas overlooking playground areas.
- 6** Carved timber posts with sandstone blocks placed along pathway, for casual seating. (Already installed)
- 7** New gardens to complement play areas and create an enclosed space for play and discovery. Planting to comprise mainly of low groundcovers and small shrubs to create a soft buffer from the road and reduce maintenance.
- 8** Bespoke play structure designed for older children with an elevated position to encourage climbing, balancing, swinging, with a focus on using natural materials.
- 9** Rubber play mounds with rope holds and stepped blocks to provide various access to the top. A climbing net connects the mounds for children to cross between them.
- 10** Relocated two bay swing set with standard and toddler seats.
- 11** Large natural boulders to provide a challenging climbing experience.
- 12** Seating circle with timber logs and large rocks creates opportunity for quiet and collaborative space.
- 13** Stepping stones, logs, balance beams, low height ropes and ladders weaving through garden beds to provide additional play space.
- 14** Natural track connecting seating circle and picnic area. Potential to include small discovery elements throughout the track focusing on local flora and fauna.

*All proposed features are subject to further detailed designs, investigations and available funding.*

NTS.

# Macaranga Crescent Park - Final Concept Plan

Dedicated to a better Brisbane

Casual seating pods. Carved timber posts with nature theme placed within sandstone blocks
