

Wynnum Road and Southgate Avenue safety upgrade

Project introduction

October 2024

Dedicated to a better Brisbane

Brisbane City Council is pleased to announce plans to upgrade the Wynnum Road and Southgate Avenue intersection at Cannon Hill, to improve safety for road users and enhance connectivity for people walking and riding.

Project overview

Between 2017 and 2021, there were 11 reported crashes at the Wynnum Road and Southgate Avenue intersection in Cannon Hill, 4 of which resulted in hospitalisation. Almost half of the crashes involved road users failing to give way when turning right from Wynnum Road into Southgate Avenue.

To improve safety and reduce the crash risk at this intersection, we plan to reconfigure the traffic signal phasing to provide a fully controlled right turn for road users travelling from Wynnum Road into Southgate Avenue.

The right-turn pocket on Wynnum Road will be extended to increase capacity. To cater for this, the eastbound and westbound lanes on Wynnum Road will be realigned.

A new pedestrian crossing will be installed on the left-turn slip lane into Southgate Avenue as well as improvements to the on-road cycle lanes.

Works will also include reconstructing kerb ramps, upgrading drainage, installing new kerb, signage and line marking to suit the new intersection layout. To find out more, scan the QR code or view the project plan over the page.

Project timing

Early October 2024
Project introduction

Mid-October 2024
Start of construction

December 2024
End of construction

Project funding

The Wynnum Road and Southgate Avenue safety upgrade is funded by the Australian Government as part of the 2024-25 Black Spot Program.
